

Getting To Know The Stream Next Door
*A Series of Programs and Events Sponsored By the
Stormwater Coalition of Albany County*

* * *

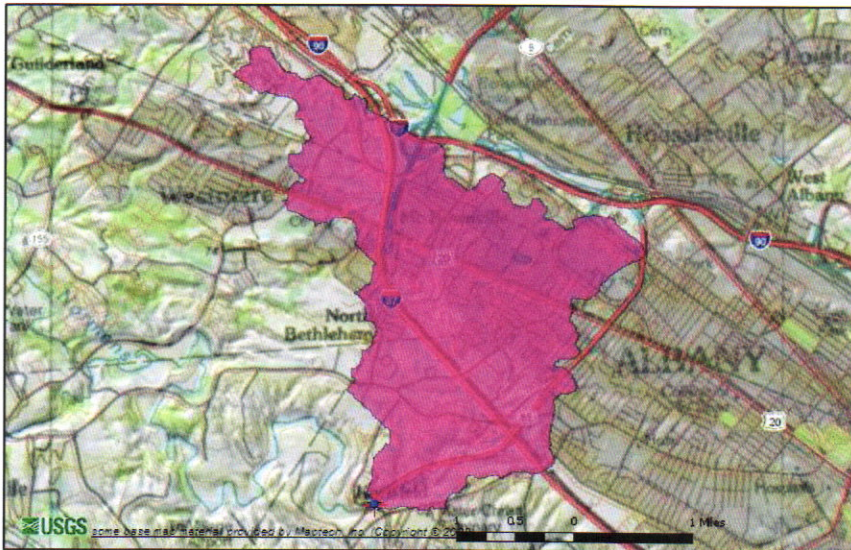

A Water Quality Report Card for the Krumkill Watershed

GUEST SPEAKER and PRINCIPAL INVESTIGATOR

J. Kelly Nolan

Watershed Assessment Associates for Hudson Basin River Watch
North American Benthological Society-Certified Taxonomist

THE KRUMKILL WATERSHED

Tools are available to assess water quality and that information can be used to explain what kind of pollution may be occurring in a watershed. This program, funded by the NYSDEC Hudson River Estuary Program, will focus on a Krumkill water quality assessment conducted in 2007. Learn how to conduct an assessment using aquatic insects, find out how this assessment fits in with Clean Water Act requirements, and help match observed water quality problems with everyday behavior in the watershed.

Eight sites were assessed and the results are fascinating! Learn about your neighborhood stream!

DATE

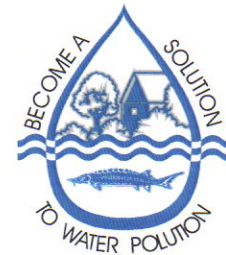

Thursday, February 18, 2010

TIME

7pm to 9pm

LOCATION

**Holiday Inn Express
1442 Western Avenue
(Between SUNY Albany Western Ave
entrance and Stuyvesant Plaza)**
