SEE ATTACHED

(If additional space is needed, attach pages the same size as this sheet, and number each.)

(Complete the certification in the paragraph that applies to the filing of this local law and strike out that which is not applicable.)

1. (Final adoption by local legislative body only.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ 3 _____ of 19²⁰⁰⁷ of the (County)(City)(Town)(Village) of _____ COLONIE _____ was duly passed by the BOARD OF TRUSTEES _____ on _____ 8/13 _____ 2007, in accordance with the applicable provisions of law.
(Name of Legislative Body)

2. (Passage by local legislative body with approval, no disapproval or repassage after disapproval by the Elective Chief Executive Officer*.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ of 19____ of the (County)(City)(Town)(Village) of _____ was duly passed by the _____ on _____ 19____, and was (approved)(not approved)(repassed after disapproval) by the _____ and was deemed duly adopted on _____ 19____, in accordance with the applicable provisions of law.
(Elective Chief Executive Officer)*

3. (Final adoption by referendum.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ of 19____ of the (County)(City)(Town)(Village) of _____ was duly passed by the _____ on _____ 19____, and was (approved)(not approved)(repassed after disapproval) by the _____ on _____ 19____. Such local law was submitted to the people by reason of a (mandatory)(permissive) referendum, and received the affirmative vote of a majority of the qualified electors voting thereon at the (general)(special)(annual) election held on _____ 19____, in accordance with the applicable provisions of law.
(Elective Chief Executive Officer)*

4. (Subject to permissive referendum and final adoption because no valid petition was filed requesting referendum.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ of 19____ of the (County)(City)(Town)(Village) of _____ was duly passed by the _____ on _____ 19____, and was (approved)(not approved)(repassed after disapproval) by the _____ on _____ 19____. Such local law was subject to permissive referendum and no valid petition requesting such referendum was filed as of _____ 19____, in accordance with the applicable provisions of law.
(Elective Chief Executive Officer)*

* Elective Chief Executive Officer means or includes the chief executive officer of a county elected on a county-wide basis or, if there be none, the chairperson of the county legislative body, the mayor of a city or village, or the supervisor of a town where such officer is vested with the power to approve or veto local laws or ordinances.

5. (City local law concerning Charter revision proposed by petition.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ of 19____ of the City of _____ having been submitted to referendum pursuant to the provisions of section (36)(37) of the Municipal Home Rule Law, and having received the affirmative vote of a majority of the qualified electors of such city voting thereon at the (special)(general) election held on _____ 19____, became operative.

6. (County local law concerning adoption of Charter.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ of 19____ of the County of _____ State of New York, having been submitted to the electors at the General Election of November _____ 19____, pursuant to subdivisions 5 and 7 of section 33 of the Municipal Home Rule Law, and having received the affirmative vote of a majority of the qualified electors of the cities of said county as a unit and a majority of the qualified electors of the towns of said county considered as a unit voting at said general election, became operative.

(If any other authorized form of final adoption has been followed, please provide an appropriate certification.)

I further certify that I have compared the preceding local law with the original on file in this office and that the same is a correct transcript therefrom and of the whole of such original local law, and was finally adopted in the manner indicated in paragraph _____, above.

Clerk of the County legislative body, City, Town or Village Clerk or officer designated by local legislative body

Local Law Filing

DATED-

Village of Colonie

Local Law No.2 of the year 2007

A local law entitled "Storm Sewer System Illicit Discharges, Activities and Connections"

Be it enacted by the Village Board of the Village of Colonie as follows:

CHAPTER 193 – Storm Sewer System Illicit Discharges, Activities and Connections

193-1 Purpose/ Intent

The purpose of this Chapter of the Village of Colonie Code is to provide for the health, safety, and general welfare of the citizens of the Village of Colonie through the regulation of non-storm water discharges to the municipal separate storm sewer system (aka "MS4") to the maximum extent practicable as required by federal and state law. This Chapter establishes methods for controlling the introduction of pollutants into the MS4 in order to comply with requirements of the SPDES General Permit for Municipal Separate Storm Sewer Systems. The objectives of this Chapter are:

- (A) To meet the requirements of the SPDES General Permit for Stormwater Discharges from MS4s, Permit no. GP-02-02 or as amended or revised;
- (B) To regulate the contribution of pollutants to the MS4 since such systems are not designed to accept, process or discharge non-storm water wastes;
- (C) To prohibit Illicit Connections, Activities and Discharges to the MS4;
- (D) To establish legal authority to carry out all inspection, surveillance and monitoring procedures necessary to ensure compliance with this Chapter; and
- (F) To promote public awareness of the hazards involved in the improper discharge of trash, yard waste, lawn chemicals, pet waste, wastewater, grease, oil, petroleum products, cleaning products, paint products, hazardous waste, sediment and other pollutants into the MS4.

193-2. Definitions

Whenever used in this Chapter, unless a different meaning is stated in a definition applicable to only a portion of this law, the following terms will have meanings set forth below:

- (A) **Best Management Practices (BMPs).** Schedules of activities, prohibitions of practices, general good house keeping practices, pollution prevention and educational practices, maintenance procedures, and other management practices to prevent or reduce the discharge of pollutants directly or indirectly to storm water, receiving waters, or storm water conveyance systems. BMPs also include treatment practices, operating procedures, and practices to control site runoff, spillage or leaks, sludge or water disposal, or drainage from raw materials storage.
- (B) **Clean Water Act.** The Federal Water Pollution Control Act (33 D.S.C. § 1251 et seq.), and any subsequent amendments thereto.
- (C) **Construction Activity.** Activities requiring authorization under the SPDES permit for stormwater discharges from construction activity, GP-02-01, as amended or revised. These activities include construction projects resulting in land disturbance of one or more acres. Such activities include but are not limited to clearing and grubbing, grading, excavating, and demolition.
- (D) **DEC.** The New York State Department of Environmental Conservation.
- (E) **Hazardous Materials.** Any material, including any substance, waste, or combination thereof, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may cause, or significantly contribute to, a substantial present or potential hazard to human health, safety, property, or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.
- (F) **Illicit Connections.** Any drain or conveyance, whether on the surface or subsurface, which allows an illegal discharge to enter the MS4, including but not limited to:
 - (a). Any conveyances which allow any non-storm water discharge including treated or untreated sewage, process wastewater, and wash water to enter the MS4 and any connections to the storm drain system from indoor drains and sinks, regardless of whether said drain or connection had been previously allowed, permitted, or approved by an authorized enforcement agency; or
 - (b). Any drain or conveyance connected from a commercial or industrial land use to the MS4 which has not been documented in plans, maps, or equivalent records and approved by an authorized enforcement agency.
- (G) **Illicit Discharge.** Any direct or indirect non storm water discharge to the MS4, except as exempted in Section 193-5 of this Chapter.
- (H) **Industrial Activity.** Activities requiring the SPDES permit for discharges from industrial activities except construction, GP-98-03, as amended or revised.

- (I) **MS4. Municipal Separate Storm Sewer System.**
- (J) **Municipal Separate Storm Sewer System.** A conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains):
- (a) Owned or operated by the Village of Colonie;
 - (b) Designed or used for collecting or conveying storm water;
 - (c) Which is not a combined sewer; and
 - (d) Which is not part of a Publicly Owned Treatment Works (POTW) as defined at 40 CFR 122.2
- (K) **Municipality.** The Village of Colonie
- (L) **Non-Storm Water Discharge.** Any discharge to the MS4 that is not composed entirely of storm water.
- (M) **Person.** Any individual, association, organization, partnership, firm, corporation or other entity recognized by law and acting as either the owner or as the owner's agent.
- (N) **Pollutant.** Dredged spoil, filter backwash, solid waste, incinerator residue, treated or untreated sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand and industrial, municipal, agricultural waste and ballast discharged into water which may cause or might reasonably be expected to cause pollution of the waters of the state in contravention of the standards.
- (O) **Premises.** Any building, lot, parcel of land, or portion of land whether improved or unimproved including adjacent sidewalks and parking strips.
- (P) **Special Conditions.**
- (1). **Discharge Compliance with Water Quality Standards.** The condition that applies where a municipality has been notified that the discharge of storm water authorized under their MS4 permit may have caused or has the reasonable potential to cause or contribute to the violation of an applicable water quality standard. Under this condition the municipality must take all necessary actions to ensure future discharges do not cause or contribute to a violation of water quality standards.
 - (2). **303(d) Listed Waters.** The condition in the municipality's MS4 permit that applies where the MS4 discharges to a 303 (d) listed water. Under this condition the storm water management program must ensure no increase of the listed pollutant of concern to the 303(d) listed water.
 - (3). **Total Maximum Daily Load (TMDL) Strategy.** The condition in the municipality's MS4 permit where a TMDL including requirements for control of storm water discharges has been approved by EPA for a water body or watershed into which the MS4 discharges. If the discharge from the MS4 did not meet the TMDL storm water allocations prior to September 10, 2003, the municipality was required to modify its storm water management program to ensure that reduction of the pollutant of concern specified in the TMDL is achieved.
 - (4). The condition in the municipality's MS4 permit that applies if a TMDL is approved in the future by EPA for any water body or watershed into which an MS4 discharges. Under this condition the municipality must review the applicable TMDL to see if it includes requirements for control of storm water discharges. If an MS4 is not meeting the TMDL storm water allocations, the municipality must, within six (6) months of the TMDL's approval, modify its storm water

management program to ensure that reduction of the pollutant of concern specified in the TMDL is achieved.

- (Q) **State Pollutant Discharge Elimination System (SPDES) Stormwater Discharge Permit.** A permit issued by the Department that authorizes the discharge of pollutants to waters of the state.
- (R) **Storm water or Storm Water.** Rainwater, surface runoff, snowmelt and drainage.
- (S) **Storm Water Management Officer (SMO).** An employee, the municipal engineer or other public official(s) designated by the Village of Colonie to enforce this Chapter. The SMO may also be designated by the municipality to accept and review storm water pollution prevention plans, forward the plans to the applicable municipal board and inspect storm water management practices.
- (T) **303(d) List.** A list of all surface waters in the state for which beneficial uses of the water (Drinking, recreation, aquatic habitat, and industrial use) are impaired by pollutants, prepared periodically by the DEC as required by Section 303(d) of the Clean Water Act. 303(d) listed waters are estuaries, lakes and streams that fall short of state surface water quality standards and are not expected to improve within the next two years.
- (U) **TMDL.** Total Maximum Daily Load.
- (V) **Total Maximum Daily Load.** The maximum amount of a pollutant to be allowed to be released into a water body so as not to impair uses of the water, allocated among the sources of that pollutant.
- (W) **Village.** The Village of Colonie.
- (X) **Wastewater or Waste Water.** Water that is not Storm Water and which is contaminated with pollutants and is or will be discarded.

193-3. Applicability.

This Chapter shall apply to all water entering the MS4 generated on any developed and undeveloped lands unless explicitly exempted by an authorized enforcement agency.

193-4. Responsibility for Administration.

The Storm Water Management Officer(s) (SMO(s)) shall administer, implement, and enforce the provisions of this Chapter. Such powers granted or duties imposed upon the authorized enforcement official may be delegated in writing by the SMO as may be authorized by the municipality.

193-5. Discharge Prohibitions.

- (A) **Prohibition of Illegal Discharges.**
No person shall discharge or cause to be discharged into the MS4 any materials other than storm water except as provided in sub-section (a) below. The commencement, conduct or continuance of any illegal discharge to the MS4 is prohibited except as described as follows:

- (1) The following discharges are exempt from discharge prohibitions established by this Chapter, unless the DEC or the municipality has determined them to be substantial contributors of pollutants: water line flushing or other potable water sources, landscape irrigation or lawn watering, existing diverted stream flows, rising ground water, uncontaminated ground water infiltration to storm drains, uncontaminated pumped ground water, foundation or footing drains, crawl space or basement sump pumps, air conditioning condensate, irrigation water, springs, water from individual residential car washing, natural riparian habitat or wetland flows, dechlorinated swimming pool discharges, residential street wash water, water from fire fighting activities, and any other water source not containing pollutants. Such exempt discharges shall be made in accordance with an appropriate plan for reducing pollutants.
- (2) Discharges approved in writing by the SMO to protect life or property from imminent harm or damage, provided that, such approval shall not be construed to constitute compliance with other applicable laws and requirements, and further provided that such discharges may be permitted for a specified time period and under such conditions as the SMO may deem appropriate to protect such life and property while reasonably maintaining the purpose and intent of this local law.
- (3) Dye testing in compliance with applicable state and local laws is an allowable discharge, but requires a verbal notification to the SMO prior to the time of the test.
- (4) The prohibition shall not apply to any discharge permitted under a SPDES permit, waiver, or waste discharge order issued to the discharger and administered under the authority of the DEC, provided that the discharger is in full compliance with all requirements of the permit, waiver, or order and other applicable laws and regulations, and provided that written approval has been granted for any discharge to the MS4.

(B) Prohibition of Illicit Connections.

- (1) The construction, use, maintenance or continued existence of illicit connections to the MS4 is prohibited.
- (2) This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.
- (3) A person is considered to be in violation of this Chapter if the person connects a line conveying sewage to the municipality's MS4, or allows such a connection to continue.

193-6. Prohibition Against Activities Contaminating Storm Water

- (A) Activities that are subject to the requirements of this section are those types of activities that:
 - (1) Cause or contribute to a violation of the Village's MS4 SPDES permit.
 - (2) Cause or contribute to the Village being subject to the Special Conditions as defined in Section B (Definitions) of this Chapter.
- (B) Such activities include improper management of pet waste or any other activity that causes or contributes to violations of the Village's MS4 SPDES permit authorization.

- (C) Upon notification to a person that he or she is engaged in activities that cause or contribute to violations of the Village's MS4 SPDES permit authorization, that person shall take all reasonable actions to correct such activities such that he or she no longer causes or contributes to violations of the Village's MS4 SPDES permit authorization.

193-7 Requirement to Prevent, Control and Reduce Storm water Pollutants By The Use Of Best Management Practices.

(A) Best Management Practices

Where the SMO has identified illicit discharges as defined in Section 193-2 or activities contaminating storm water as defined in Section 193-6 the Village may require implementation of Best Management Practices (BMPs) to control those illicit discharges and activities.

- (1) The owner or operator of a commercial or industrial establishment shall provide, at their own expense, reasonable protection from accidental discharge of prohibited materials or other wastes into the MS4 through the use of structural and nonstructural BMPs.
- (2) Any person responsible for a property or premise, which is, or may be, the source of an illicit discharge as defined in Section 193-2 or an activity contaminating storm water as defined in Section 193-6, may be required to implement, at said person's expense, additional structural and non-structural BMPs to reduce or eliminate the source of pollutant(s) to the MS4.
- (3) Compliance with all terms and conditions of a valid SPDES permit authorizing the discharge of storm water associated with industrial activity, to the extent practicable, shall be deemed compliance with the provisions of this section.

193-8. Suspension of Access to MS4. Illicit Discharges in Emergency Situations.

- (A) The SMO may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge which presents or may present imminent and substantial danger to the environment, to the health or welfare of persons, or to the MS4. The SMO shall notify the person of such suspension within a reasonable time thereafter in writing of the reasons for the suspension. If the violator fails to comply with a suspension order issued in an emergency, the SMO may take such steps as deemed necessary to prevent or minimize damage to the MS4 or to minimize danger to persons.
- (B) Suspension due to the detection of illicit discharge. Any person discharging to the Village's MS4 in violation of this law may have their MS4 access terminated if such termination would abate or reduce an illicit discharge. The SMO will notify a violator in writing of the proposed termination of its MS4 access and the reasons therefore. The violator may petition the SMO for a reconsideration and hearing. Access may be granted by the SMO if he/she finds that the illicit discharge has ceased and the discharger has taken steps to prevent its recurrence. Access may be denied if the SMO determines in writing that the illicit discharge has not ceased or is likely to recur. A person commits an offense if the person reinstates MS4 access to premises terminated pursuant to this Section, without the prior approval of the SMO.

193-9. Industrial or Construction Activity Discharges.

Any person subject to an industrial or construction activity SPDES storm water discharge permit shall comply with all provisions of such permit. Proof of compliance with said permit may be required in a form acceptable to the Village prior to the allowing of discharges to the MS4.

193-10. Access and Monitoring of Discharges.

- (A) Applicability. This section applies to all facilities that the SMO must inspect to enforce any provision of this Chapter, or whenever the authorized enforcement agency has cause to believe that there exists, or potentially exists, in or upon any premises any condition which constitutes a violation of this Chapter.
- (B) Access to Facilities.
 - (1) The SMO shall be permitted to enter and inspect facilities subject to regulation under this Chapter as often as may be necessary to determine compliance with this Chapter. If a discharger has security measures in force which require proper identification and clearance before entry into its premises, the discharger shall make the necessary arrangements to allow access to the SMO.
 - (2) Facility operators shall allow the SMO ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records as may be required to implement this Chapter.
 - (3) The Village shall have the right to set up on any facility subject to this Chapter such devices as are necessary in the opinion of the SMO to conduct monitoring and/or sampling of the facility's storm water discharge.
 - (4) The Village has the right to require the facilities subject to this Chapter to install monitoring equipment as is reasonably necessary to determine compliance with this Chapter. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at its own expense. All devices used to measure storm water flow and quality shall be calibrated to ensure their accuracy.
 - (5) Unreasonable delays in allowing the Village access to a facility subject to this Chapter is a violation of this Chapter. A person who is the operator of a facility subject to this Chapter commits an offense if the person denies the Village reasonable access to the facility for the purpose of conducting any activity authorized or required by this Chapter.
 - (6) If the SMO has been refused access to any part of the premises from which stormwater is discharged, and he/she is able to demonstrate probable cause to believe that there may be a violation of this Chapter, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this Chapter or any order issued hereunder, then the SMO may seek issuance of a search warrant from any court of competent jurisdiction.

193-11. Notification of Spills.

Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of any known or suspected release of materials which are resulting or may result in illegal discharges or pollutants discharging into the MS4, said person shall take all necessary steps to ensure the discovery, containment, and cleanup of such release. In the event of such a release of hazardous materials said person shall immediately notify emergency response agencies of the occurrence via emergency dispatch services. In the event of a release of non-hazardous materials, said person shall notify the Village in person or by telephone or facsimile no later than the next business day. Notifications in person or by telephone shall be confirmed by written notice addressed and mailed to the Village within three business days of the telephone notice. If the discharge of prohibited materials emanates from a commercial or industrial establishment, the owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.

193-12. Enforcement.

(A) Notice of Violation.

When the Village's SMO finds that a person has violated a prohibition or failed to meet a requirement of this Chapter, he/she may order compliance by written notice of violation to the responsible person. Such notice may require without limitation:

- (1) The elimination of illicit connections or discharges;
- (2) That violating discharges, practices, or operations shall cease and desist;
- (3) The abatement or remediation of storm water pollution or contamination hazards and the restoration of any affected property;
- (4) The performance of monitoring, analyses, and reporting;
- (5) Payment of a fine; and
- (6) The implementation of source control or treatment BMPs. If abatement of a violation and/or restoration of affected property is required, the notice shall set forth a deadline within which such remediation or restoration must be completed. Said notice shall further advise that, should the violator fail to remediate or restore within the established deadline, the work will be done by a designated governmental agency or a contractor and the expense thereof shall be charged to the violator.

(B) Penalties

In addition to or as an alternative to any penalty provided herein or by law, any person who violates the provisions of this Chapter shall be guilty of a violation punishable by a fine not exceeding five thousand dollars (\$5000) or imprisonment for a period not to exceed six months, or both for conviction of a first offense; for conviction of a second offense both of which were committed within a period of five years, punishable by a fine not less than three hundred fifty dollars nor more than ten thousand dollars (\$10,000) or imprisonment for a period not to exceed six months, or both; and upon conviction for a third or subsequent offense all of which were committed within a period of five years, punishable by a fine not less than seven hundred dollars nor more than fifteen thousand dollars (\$15,000) or imprisonment for a period not to exceed six months, or both.

However, for the purposes of conferring jurisdiction upon courts and judicial officers generally, violations of this Chapter shall be deemed misdemeanors and for such purpose only all provisions of law relating to misdemeanors shall apply to such violations. Each week's continued violation shall constitute a separate additional violation.

193-13. Appeal of Notice of Violation.

Any person receiving a Notice of Violation may appeal the determination of the SMO to the Village Board within 15 days of its issuance, which shall hear the appeal within 30 days after the filing of the appeal, and within five days of making its decision, file its decision in the office of the Village Clerk and mail a copy of its decision by certified mail to the discharger.

193-14 Corrective Measures After Appeal.

- (1) If the violation has not been corrected pursuant to the requirements set forth in the Notice of Violation, or, in the event of an appeal, within 5 business days of the decision of the municipal authority upholding the decision of the SMO, then the SMO shall request the owner's permission for access to the subject private property to take any and all measures reasonably necessary to abate the violation and/or restore the property.
- (2) If refused access to the subject private property, the SMO may seek a warrant in a court of competent jurisdiction to be authorized to enter upon the property to determine whether a violation has occurred. Upon determination that a violation has occurred, the SMO may seek a court order to take any and all measures reasonably necessary to abate the violation and/or restore the property. The cost of implementing and maintaining such measures shall be the sole responsibility of the discharger.

193-15 Injunctive Relief.

It shall be unlawful for any person to violate any provision or fail to comply with any of the requirements of this Chapter. If a person has violated or continues to violate the provisions of this Chapter, the SMO may petition for a preliminary or permanent injunction restraining the person from activities which would create further violations or compelling the person to perform abatement or remediation of the violation.

193-16 Alternative Remedies.

- (A) Where a person has violated a provision of this Chapter, he/she may be eligible for alternative remedies in lieu of a civil penalty, upon recommendation of the Village Attorney and concurrence of the Storm Water Management Officer, where:
 - (1) The violation was unintentional
 - (2) The violator has no history of previous violations of this Chapter.
 - (3) Environmental damage was minimal.
 - (4) Violator acted quickly to remedy violation.
 - (5) Violator cooperated in investigation and resolution.

(B) Alternative remedies may consist of one or more of the following:

- (1) Attendance at compliance workshops
- (2) Storm drain stenciling or storm drain marking
- (3) River, stream or creek cleanup activities

193-17. Violations Deemed a Public Nuisance.

In addition to the enforcement processes and penalties provided, any condition caused or permitted to exist in violation of any of the provisions of this Chapter is a threat to public health, safety, and welfare, and is declared and deemed a nuisance, and may be summarily abated or restored at the violator's expense, and/or a civil action to abate, enjoin, or otherwise compel the cessation of such nuisance may be taken.

193-18. Remedies not Exclusive.

The remedies listed in this Chapter are not exclusive of any other remedies available under any applicable federal, state or local law and it is within the discretion of the authorized enforcement agency to seek cumulative remedies.

193-19 Adoption of Law

This law shall be in full force and effect _____ days after its final passage and adoption. All prior laws and parts of law in conflict with this law are hereby repealed.

PASSED AND ADOPTED this 13th day of Aug., 2007, by the following vote:

Trustee: Betty Film

Trustee: Jack Murphy

Trustee: Thomas Tobin

Trustee: _____

Mayor: Frank Leak
