

Stormwater Coalition of Albany County Joint Annual Report

SPDES General Permit for Stormwater Discharges
from Municipal Separate Storm Sewer Systems (MS4s)
Permit No. GP-0-15-003

Reporting Period
March 10, 2015 to March 9, 2016

BACKGROUND

A requirement of all regulated “MS4” municipalities is the submission of an Annual Report to the New York State Department of Environmental Conservation (NYSDEC) due in FINAL form by June 1. As stated in SPDES General Permit No. GP-0-15-003, Part V. C. 2 and referenced in the MS4 Annual Report Form, “MS4s” may submit a Joint Annual Report provided they have a legally binding agreement with other regulated “MS4s”.

Each of the regulated “MS4s” included in this report are co-signatories of the necessary agreements, in particular the Stormwater Coalition of Albany County Inter-municipal Agreement, pursuant to Article 5-G of New York State General Municipal Law for Traditional MS4s and Memorandum Of Understanding for Non-Traditional MS4s.

The submission of a FINAL Joint Annual Report first involves the release of a DRAFT Joint Annual Report, followed by the collection of public comments, if any. These comments are included in the FINAL Joint Annual Report and used to help guide the implementation of program requirements. Comments regarding any aspect of stormwater program implementation, either for the Coalition or individual MS4 Programs are strongly encouraged and welcome throughout the year. To understand MS4 Permit requirements and related program activities, go to the NYSDEC website and/or the Coalition website:
www.albanycountystormwater.com

HOW TO SUBMIT COMMENTS

1. Electronically using the Stormwater Coalition website “Public Comment” interface, www.stormwateralbanycounty.org.
2. By contacting the Local Stormwater Public Contact listed in the Joint Annual Report for each permit holder (See MCC Form).
3. By contacting the individuals listed as Public Contacts on the Coalition website (see Member pages).
4. By e-mail; swcoalition@albanycounty.com or phone; 447-5645.

OTHER INFORMATION

1. Hard copies of this Joint Annual Report are located at the Stormwater Coalition office, 175 Green Street, Albany, NY 12202 and at local MS4/municipal offices (see Annual Report MCM 2 Page 4 of 6 for address information).
2. If you’d like to learn more or get involved with various stormwater volunteer projects, call 447-5645 or e-mail swcoalition@albanycounty.com.

JOINT ANNUAL REPORT FORMAT

The Annual Report document is a form developed by NYSDEC and as such provides a snapshot of program activities pertaining to individual member and collaborative Coalition activities. This Joint Annual Report includes individual Annual Reports organized by MS4 type, see order below with shared Coalition data inserted at the end of each individual report. The SPDES Permit No. of each MS4 is in parenthesis. Goals for the upcoming year are based on an updated Joint Stormwater Management Program Plan document completed in May, 2016 (SWMPv4 2015-2017). To view the SWMP Plan document, see Coalition website, Plan & Program tab.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

A Stormwater Committee has been formed consisting of Operations, General Services, Public Works, Planning, and Law. The Committee will meet a minimum of four times per year (4 meetings by 3/2016). Response will be made to 100% of stormwater hotline complaints by the Stormwater Program Technician and Natural Resource Planner. County will work with other MS4s to consider intermunicipal solutions to problems in Normanskill and Krumkill watersheds.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Stormwater Committee met 4 times during the reporting year. It was determined that the highest priority for the Committee was to review, revise, and formalize its procedures to ensure that third-party agreements were in place for stormwater management program implementation activities, mandate construction permit compliance, and development of a process for review of projects for consistency with the recently adopted green infrastructure policy. These items were all completed.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☒ Yes ☐ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Stormwater Committee will continue to meet (at least quarterly) and will persist with implementation of the green infrastructure policy, identification of new priority initiatives, and evaluation of the success of policy implementation. The Committee will review facility assessments performed in 2015 to identify trends and areas for possible improvement and identify strategies for program betterment.

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

By 3/2016, all mapped outfalls that have not yet been inventoried through ORI will be inspected. IDDE Procedures will be fully updated and communicated to all relevant staff via the Stormwater Committee. All new outfalls identified through ORI and mapping work will be uploaded to GIS. Method of collecting IDDE complaint info from multiple County departments will be standardized. Storm system mapping of County Routes 153, 157, and 203 will be completed by March 2017.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Completed mapping of County Rt. 156 (in Patroon Creek watershed), commenced mapping of CR 253, and corrected mapping errors and discrepancies in other areas. Progress made in catching up on outfall reconnaissance inventory, as of now less than 20 outfalls have not been ever sampled and these are due to access restrictions or recent addition. Formal IDDE procedures have been adopted by County Legislature, relevant department staff have been trained on IDDE.

C. How many times was this observation measured or evaluated in this reporting period?

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☒ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Completion of system mapping will allow for completion of sewershed maps with mapping grant project. System mapping will be completed for New Karner Rd (CR 157) and Cherry/Elm Ave (CR 52). Follow-up will be completed on previously assessed outfalls with potential indicators of illicit discharges or elevated nonpoint source pollutants. Process will be developed to better characterize County Health Dept complaint investigations relative to stormwater infrastructure.

For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.**

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

By 3/2016, the County will update its facility inventory and complete self-audits of facilities that have not been assessed but discharge stormwater, with immediate focus on downtown properties, and complete 9 high priority audits. The County will sweep 50 road miles and 10 acres of parking lots, and prioritize catch basin cleanouts and begin implementation of cleanout schedule. County will develop standardized procedures related to 3rd party certification statements for future contracts.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Nine facility assessments were completed, and best management practices were developed for each facility and distributed to designated responsible personnel. These facilities have begun implementation of BMPs as resources allow. Also, two facilities assessed in previous self-audits were revisited to evaluate progress and operational changes. Pollution prevention procedures for County DPW operations are under revision and a draft has been completed.

C. How many times was this observation measured or evaluated in this reporting period?

D. Has your MS4 made progress toward this measurable goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☒ Yes ☐ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Facility self-audits will be completed for any remaining County properties in the urbanized area of Albany County that have not been assessed within the preceding three years. County DPW is updating its pollution prevention procedures for all aspects of its operations and will finalize and institute the revised procedures by March 2017. Responsibility for County parking lot sweeping will be assessed and a plan to improve sweeping frequency will be developed.

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Town will attempt to inspect 20% (150 outfalls) of known outfalls during the upcoming reporting period.

Town will attempt to map an additional 20% of the known collection system during the upcoming reporting period.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Town was able to only inspect 1 of the known outfall last year. Ongoing effort was made to identify and locate stormwater collection systems and outfall locations. These outfalls will be put into the upcoming inspection cycle.

The Town was able to map an additional 10% (approximate) of it's known collection system.

C. How many times was this observation measured or evaluated in this reporting period?

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Town will utilize the most current electronic solution to inspect 100% of the active construction sites a minimum of once (1) per month during the upcoming reporting period.

The Town will create a layer within the GIS program to inventory and track all approved SWPPP's within the Town.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Town conducted formal inspections of each active construction site on a biweekly basis through the summer months and continued inspections throughout the remainder of the reporting period on an 'as-needed' basis to monitor site conditions.

All SWPPPs, active and completed, are mapped within the Town's Sharepoint site.
