

For this Fall 2016... two "Stormwater Wednesdays"

An education and training initiative sponsored by the Stormwater Coalition of Albany County

Center for Watershed Protection (CWP) Webcasts

Managing stormwater runoff is challenging...

(but not impossible!!!!)

These two webcasts will provide **research based guidance** and **practical advice** for the many now designing stormwater systems, managing stormwater programs, or overseeing regulatory compliance. **Help clean up our waterways!** Learn how, all welcome!

Retrofitting Revisited: Forward Into the Past

October 12, 2016; 1 - 2:30 PM

Location: Town of Colonie; Public Operations Center; 347 Old Niskayuna Rd; Latham, NY

This webcast will focus on the restoration of urban and suburban watersheds through stormwater retrofitting. In particular, we will revisit some past case studies highlighted in earlier webcasts and discuss the design and implementation of stormwater retrofit practices, how the retrofits have been performing, and what lessons were learned during the process. The webcast will also provide information about the cost and pollutant removal performance of stormwater retrofits.

Non-Traditional MS4s

November 16, 2016; 1- 2:30 PM

Location: Town of Colonie; Public Operations Center; 347 Old Niskayuna Rd; Latham, NY

Some MS4s have their own unique characteristics that make developing a stormwater plan a challenge. Examples of non-traditional MS4s include college campuses, airports, and prisons. This webcast will look at how these special MS4s are treated in the regulatory process, and examine unique considerations for successful planning.
